| This item requests funding for the ongoing inflation of pharmaceuticals. The 6.7% inflation rate requested in this decision item is identical to the rate requested by MO HealthNet Division for Pharmacy. This item also includes funding for the annual cost increase for contracted pharmacy and advanced practitioner services and Hepatitis C medications. | GR                   | \$282,719            | 0.00         |

| The request for funding is to complete the amount requested for the faith and community based programs to address opioid and other substance use disorders. This will take the funding back to the original amount of \$3M that was requested in FY 2019.   | GR               | \$1,000,000          | 0.00         |

| This federal authority will allow DMH to receive the two year grant. The purpose of Missouri's SOR project is to continue and build upon the system changes for opioid use disorder prevention, treatment, and recovery, while focusing more explicitly on reaching high-risk and vulnerable populations (pregnant and parenting women, justice-involved persons, racial minorities, active drug users, individuals in rural areas, at-risk youth, etc.).           | FED              | \$22,597,871         | 0.00         |

| This funding will allow the current 15 CCBHCs to continue to receive a prospective payment for behavioral health services provided to certain Medicaid enrollees.   | GR               | \$1,800,000          | 0.00         |
| ➤ The CCBHC Prospective Payment System (PPS) demonstration pilot project and enhanced federal match will end June 30, 2019. This decision item is needed in order to continue the services provided under the CCBHC PPS. (\$12,816,981 GR)  | FED              | \$2,234,209          | 0.00         |
| ➤ This request also includes the Medicare Economic Index (MEI) of 0.2% not appropriated in FY 2019 as well as a projected FY 2020 MEI increase of 2.02%. (\$2,262,709 GR \$4,312,641 Federal)   | SUBTOTAL         | \$4,034,209          | 0.00         |
| ➤ General revenue funding for several ongoing core programs, including the KC Crisis & Triage Center, was reduced in the FY19 budget under the assumption these programs could be included in the CCBHC rates. After further analysis, these programs were determined to be ineligible for CCBHC rate inclusion. Therefore, these ongoing programs need a restoration of their GR funding in order to continue providing the same level of services. (\$815,038 GR) |                  |                      |              |
| ➤ Previously, the Access Crisis Intervention (ACI) system has been funded with federal revenues from Medicaid administrative earnings. Since those federal revenues are no longer available with implementation of the PPS and since the ACI system is ineligible for CCBHC rate inclusion, general revenue is being requested to maintain the statewide behavioral health crisis system. The pay plan begins on January 1, 2020.  | GR               | \$1,733              | 0.00         |

Therefore, these ongoing programs need a restoration of their GR funding in order to continue providing the same level of services. | <b><u>DMH FMAP Adjustment</u></b><br>Due to a decrease in the state share of the blended FMAP rate, there will be a net cost shift from GR to federal funds. In order to realign the federal match, an NDI for additional federal authority as well as corresponding core reductions in GR are needed. The blended FMAP rate increased by 0.385% from 65.203% in FY19 to 65.588% in FY20.   | FED              | \$3,638,931            | 0.00            |
| <b><u>DD Provider Cost of Living Adjustment (COLA) Shortfall</u></b><br>The amount originally appropriated in FY19 was calculated by restoring the amount that was core reduced in FY18 and didn't take into account core changes that occurred. This funding is a cost-to-continue the FY19 supplemental request which increases the amount appropriated in FY19 for the DD Provider COLA to 1.5%.   | GR               | \$469,906              | 0.00            |

| <b><u>DD Rate Standardization</u></b><br>Rates paid for contracts with provider agencies have not kept up with the inflationary rate for this industry due to limited or inconsistent cost of living adjustments. The rate differential necessary to bring current rates up to the actual market cost was annualized, resulting in this request. These rates directly affect the wages that can be paid to direct support staff.  | GR               | \$20,109,141           | 0.00            |

| <b><u>Pay Plan Cost-to-Continue</u></b><br>The FY 2019 budget includes appropriation authority for a \$700 pay increase for employees making under \$70,000 and a 1% pay increase for employees making over \$70,000 beginning January 1, 2019. The remaining six months were unfunded, but the stated intent of the legislature was to provide the funding in FY 2020.   | GR               | \$396,042              | 0.00            |

| <b><u>DD St. Louis Transportation</u></b><br>The Division of DD is working on a new Medicaid Waiver contract with LogistiCare Solutions and others to avoid interruption of transportation service within the St. Louis Area, which results in a small budget shortfall. Transportation services under this contract are critical to these individuals who need it to get to their jobs, day programs and other Medicaid Waiver services.   | GR               | \$395,574              | 0.00            |

| <b><u>Targeted Case Management</u></b><br>In FY18, this amount was core reduced based on projected lapse in FY16. Billing for this state plan service has exceeded the available funding in the appropriation, so General Revenue replacement is being requested.   | GR               | \$1,500,000            | 0.00            |
| <b><u>Timekeeping System</u></b><br>The Division of DD is in need of implementing a more efficient workforce management tool across Division of DD's state-operated programs. The desired system will help track time and attendance for staff who work in on-campus settings as well as staff who work in state-operated waiver programs in the community. The system will also assist with employee scheduling, tracking absences, analytics in identifying patterns of workforce, etc. | FED              | \$700,000              | 0.00            |

| IRF -- Inmate Revolving Fund (0540)                    | <p><i>This fund was established in accordance with RSMo. 217.430. The sources of revenue for the fund are reimbursements from offenders participating in work release, electronic monitoring, residential treatment facility programs and, per RSMo. 217.690, from the payment of a fee, not to exceed sixty dollars per month, from every offender placed under board supervision on probation, parole, or conditional release. Per RSMo. 217.430, the funds shall be used as provided by appropriation, to support offenders in education programs, drug treatment programs, residential treatment facilities, other community-based sanctions, electronic monitoring, or in work or educational release programs. RSMo. 217.690 further states that funds may be used for the costs of contracted collections services as well as to provide community corrections and intervention services for offenders. Such services include substance abuse assessment and treatment, mental health assessment and treatment, electronic monitoring services, residential facilities services, employment placement services, and other offender community corrections or intervention services designated by the board to assist offenders to successfully complete probation, parole, or conditional release. The Department of Corrections currently charges a fee of \$30 per offender under community supervision but may waive all or part of that fee based on factors such as disability or inability to pay. DOC agreed on the \$30 fee with the bill's sponsors when the intervention fee went into effect, but they allowed for the possibility of raising the fee in the future. The Department of Mental Health/Division of Behavioral Health - Alcohol &amp; Drug Abuse, in conjunction with the Department of Corrections, utilizes a portion of these fees for the following programs: Community Partnerships for Restoration (CPR), Treatment Resources Encouraging New Directions (TREND) and Southeast Missouri Treatment program (SEMO).</i></p> |        |     |
| IGT -- Inter-Governmental Transfer Fund (0147)         | <p><i>This fund is only used when the Department makes an Upper Payment Limit (UPL) claim on the state-operated ICF/DD habilitation centers to draw down additional federal funds for the State. The UPL is a method of calculating a supplemental federal payment in the Medicaid program based on Medicare cost principles.</i></p>   |        |     |
| MHEF -- Mental Health Earnings Fund (0288)             | <p><i>There are several sources of cash deposited to this fund including the ADA Counselor Certification Board, the Substance Abuse &amp; Traffic Offenders Program (SATOP), and lease payments from entities leasing space at CPS acute care facilities. These are basically self-funded programs where expenditures are limited to the amount of revenues brought into the fund.</i></p>  |        |     |
| MHIPF -- Mental Health Interagency Payment Fund (0109) | <p><i>This fund provides the mechanism for cooperative agreements between various agencies and the authority to accept funding from another state agency or DMH facility as a result of providing a service to that agency. Appropriations from this fund are considered a "double appropriation" in the statewide budget. An example of interagency payments would include Fulton State Hospital providing laundry and other services to various facilities across the state, agreements with the Children's Division to provide residential care and recovery for youth who require DMH services, etc.</i></p>  |        |     |
